

Black Dissection

/black people don't make the news
unless it's too late/

/I hope the photo they use isn't ugly/

/make sure to capture my good side
bodies lose color after death/

/the mortician takes make-up classes to add color back in/

/my biology teacher asked me if I was okay
when we were cutting open cow eyes/

/you're usually so full of color, she said/
